GUIDE

Know your mechanism

Centre tilt

Seat and back tilt together from a pivot under the seat.

Push back

The backrest reclines independently on a spring.

Synchro

Back and seat recline together in a set ratio, keeping feet grounded.

Single / multi lock

Single lock holds the upright position; multi lock holds several recline angles.

Auto weight

Recline tension adjusts itself to the sitter's weight.

Seat slider

Seat slides forward or back to set seat depth.

1D / 3D arms

1D adjusts height only; 3D adds forward-back and pivot.

COMPARE

Four ranges, side by side

RANGE	MECHANISM	ARMS	GAS LIFT	BASE	CASTORS
A Basic	Centre tilt, synchro, push back	Fixed	120 mm	5-star nylon / sled	50 mm nylon
